.Status

Status

Major modifications were needed for release 3.1.0. These are now completed

ROD:

- _ **CTP output finished**
 - _ **not fully tested/debugged yet**
 - _ Thomas SS is working to integrate with it now.
- _ **Slink Output (i.e. RoIB connections)**
 - _ Writes Slink fragments successfully but decoder isn't finished

RoIDecoder

- _ **New class that returns coordinate when given an RoIWord.**
 - _ **Finished but needs testing.**

Energy Trigger

- _ Development has started, and I plan to have it finished this month.

Trigger Configuration

- _ **I'm now working on integrating my code with Thomas's TrigT1CTP package.**
